

2017

CAR SHOW

Our Car Show on October 21ST was a huge success! Weather was perfect, locale fantastic and our members did a spectacular job of making it an extremely organized and well run event. We had 56 paid registrations, a real good variety of vehicles and the church youth group did an outstanding job of providing food to all participants.

Our purpose was to benefit the Toymakers of East Lake, a group who makes wooden toys to distribute to children locally and nationwide. Go to their website <http://toymakersofeastlake.org/> and see all that they do. After expenses, we were able to donate \$500 to them. They also provided a toy wood vehicle to each of the car show participants, which everyone thought was unique.
